

December 2004

## ***BILL EMERSON HUMANITARIAN TRUST***

The Bill Emerson Humanitarian Trust is a food reserve administered under the authority of the Secretary of Agriculture. This reserve is available to meet emergency humanitarian food needs in developing countries, allowing the United States to respond to unanticipated food crises with U.S. commodities.

Up to 4 million metric tons of U.S. wheat, corn, sorghum, and rice can be kept in reserve. As of Nov. 30, 2004, the Trust held about 1.6 million metric tons of wheat and \$87 million in cash. The cash can be used to administer activities or to purchase commodities not held in the Trust.

The reserve was originally authorized by the Agricultural Trade Act of 1980 as the Food Security Wheat Reserve. Subsequent legislation broadened the number of commodities that can be held in the reserve and, in 1998, it was renamed the Bill Emerson Humanitarian Trust. Most recently, the Farm Security and Rural Investment Act of 2002 reauthorized the Emerson Trust through 2007.

### **Guidelines for Release**

The Secretary of Agriculture is authorized to release commodities from the reserve to meet unanticipated emergency needs that cannot otherwise be met under P.L. 480, the U.S. government's major humanitarian food aid program. Each fiscal year, the Secretary can release for this purpose up to 500,000 metric tons, plus up to another 500,000 metric tons that could have been released in prior years but was not released. The Secretary is also authorized to release eligible commodities for use under P.L. 480 if the domestic supply of that commodity is determined to be in limited supply and would not meet the availability criteria of P.L. 480.

All commodities in the reserve and all donations made using the reserve are U.S. commodities.

### **Guidelines for Replenishment and Reimbursement**

The Commodity Credit Corporation (CCC) may be reimbursed for the value of U.S. commodities released from the Emerson Trust from P.L. 480 appropriations. CCC may then use that reimbursement to replenish commodities released. Reimbursement to CCC for ocean freight and related noncommodity costs occurs through the regular USDA appropriations process.

### **History of Releases Through December 2004**

Dec. 3, 2004: Release of 200,000 metric tons is authorized for use in P.L. 480, Title II, to further respond to emergency food needs in Sudan.

March 20, 2003: Release of 200,000 metric tons, with an additional 400,000 metric tons as needed, is authorized for use in P.L. 480, Title II, for unanticipated emergency needs in Iraq and Africa.

March 19, 2003: Release of 200,000 metric tons is authorized for use in P.L. 480, Title II, for unanticipated emergency needs in Africa, particularly Ethiopia and Eritrea.

Aug. 28, 2002: Release of up to 300,000 metric tons is authorized for use in P.L. 480, Title II, for unanticipated emergency needs in southern Africa.

June 7, 2002: Release of up to 275,000 metric tons is authorized for use in P.L. 480, Title II, for unanticipated emergency needs in southern Africa.

Jan. 22, 1996: Release of up to 1.5 million metric tons is authorized for use in P.L. 480, Titles I, II, and III, because of limited domestic supplies.

July 19, 1994: Release of up to 200,000 metric tons is authorized for use in P.L. 480, Title II, for unanticipated needs in Caucasus region.

May 31, 1991: Release of up to 300,000 metric tons is authorized for use in P.L. 480, Title II, for unanticipated needs in the Middle East, Asia, and Africa.

Sept. 14, 1989: Release of up to an additional 2.0 million metric tons is authorized for use in P.L. 480, Titles I and II, because of limited domestic supplies.

Oct. 26, 1988: Release of up to 1.5 million metric tons is authorized for use in P.L. 480, Titles I and II, because of limited domestic supplies.

Dec. 5, 1984: Release of up to 300,000 metric tons is authorized for use in P.L. 480, Title II, for unanticipated needs in Africa.

### **Where To Get More Information**

Further information about U.S. food aid programs is available on the FAS Web site at <http://www.fas.usda.gov/food-aid.html>. You can also contact FAS program staff by telephone (202-720-9846), fax (202-690-1595, or e-mail (PPDED@fas.usda.gov).
